Register

Already have an account? [Log in](#)

Fill in the form, click **Register**.

Welcome to your new help-desk. All you need to do is hit **"Upgrade Account"** to upgrade your account to an Admin.
This is only shown to the **FIRST** customer on your help-desk.

Voila! You're the main Admin of your Ticaga installation. You are issued a 30 day trial automatically.

To purchase a license hit on Purchase License. If you've already bought a license and wish to change the license key, edit the .env file you created when installing Ticaga and change the `LICENSE_KEY=` value.

For example: `LICENSE_KEY=ticaga-1c5sl6LZLizoAtwim`. After saving the file and reloading Ticaga your license details will update. As a paid license, your Purchase License will change to the link to manage your license.

You can re-issue your license key here if you move the installation.

Revision #3
