

Viewing a ticket

When you're viewing a ticket you will see the following:

Viewing Ticket: Do you have any documentation? Customer: Mike

Viewing Ticket: Will show you the subject of the ticket.

Customer: Shows you the currently assigned customer.

If the ticket is from a non customer, you can assign the ticket to a customer via the dropdown.

This is only shown to the Agents.

Change Department: Current: Sales

Change Status: Current: Open

Change Priority: Current: Low

Assigned to: Current: Not Applicable

Now if **you're** an Agent you can view the following section.

You can change the Department, Status, Priority of the ticket, as-well as assigning the ticket to an Agent.

If you're an **Account manager** for a customer, their tickets automatically get assigned to you. You can however change them to not assigned or to another agent if required.

Responses:

Customers show up in grey and the first ticket reply will show up with stars for the customer to rate you. If they rate you, they'll be a solid Yellow.

You can leave **Notes** for other agents, these **don't** show up for the customer. They are in Yellow just like the Agents and always on the right hand side.

Mike - Note

You could tell the customer to check out our Youtube channel as-well Michael?
